BURNS

Including Thermal Injury

The Journal of the International Society for Burn Injuries

VOLUME 1 1974–75

EDITORIAL COMMITTEE

Executive Editor
Mr J. Ellsworth Laing, FRCS,
Odstock Hospital, Salisbury, England.

Senior Editor
Mr Bruce G. MacMillan,
Shriners Hospitals for Crippled Children, Burns Institute, 202 Goodman Street, Cincinnati 45219, U.S.A.

Dr Fortunato Benaim,
Independencia 947, Buenos Aires, South America.

Professor Gosta Arturson,
Swedish Medical Research Council, Burn Centre, University Hospital, S-750-14 Uppsala, Sweden.

Dr Fernando Enriquez de Salamanca,
Felipe II, 18 Madrid 9, Spain.

Mr A. Murray Clarke,
Royal Children's Hospital, Flemington Road, Parkville, Victoria 3052, Australia.

Dr Seiichi Ohmori,
Department of Plastic Surgery, Tokyo Metropolitan Police Hospital, 20-10-41 Fujimi Chiyoda-Ku, Tokyo, Japan.

Dr M. H. Keswani,
Tata Department of Plastic Surgery, Sir J.J. Hospital, Bombay 8, India.

Contents of Volume 1

Number 1

Editorial 1
The International Society for Burn Injuries *A. B. Wallace* 2
Early laser excision of thermal burns in the white rat and miniature pig *J. P. Fidler, R. J. Rockwell, V. E. Siler, B. G. MacMillan and W. A. Altemeier* 5
Laser wound healing compared with other surgical modalities *Kumio Hishimoto, R. James Rockwell, jun., Robert A. Epstein and James P. Fidler* 13
Urine output following severe burns *John A. D. Settle* 23
Endocrine responses in burned subjects: insulin, somatotrophin, renin, angiotensin 11, ACTH and LH *Rajko Doleček, Milan Závada, Monika Adámková and Karel Leikep* 43
Possible effects of inappropriate action of catecholamines in burns and their counteraction *P. L. G. Townsend* 47
Distribution and excretion of silver sulphadiazine applied to scalds in the pig *R. Lazare, P. A. Watson and G. D. Winter* 57
The early excision of burns *Dan Mahler and John Watson* 65
The psychological effects of burns *D. MacG. Jackson* 70
The healing of tangentially excised and grafted burns *J. C. Lawrence* 75
The moulded silicone shoe in the prevention of contractures involving the burn-injured foot *Albert E. Feldman, James T. Thompson and Bruce G. MacMillan* 83
Book reviews 96

Number 2

Editorial 97
Association in burn patients of improved antibacterial defence with nutritional support by the oral route *E. Stan Lennard, J. Wesley Alexander, Thomas K. Craycraft and B. G. MacMillan* 98
Pseudomonas aeruginosa infections in burns *W. Nasiłowski, D. Bukowska, D. Serafińska and W. Ziętkiewicz* 108
Fungal infection in burn patients: results of using 5-fluorocytosine (flucytosine) *G. L. Richardson, S. Rabinovich, W. C. Boyd and C. E. Hartford* 113
Mechanisms of hypertrophic scar and contracture formation in burns *D. L. Larson, P. Baur, H. A. Linares, B. Willis, S. Abston and S. R. Lewis* 119
Plasma scalpel surgery: report of some experimental evaluations and incidence of gas emboli *Kumio Hishimoto, R. James Rockwell, jun., Robert A. Epstein, Norman G. Yunis and James P. Fidler* 128
Discriminant function analysis of 570 consecutive burns patients admitted to the Yorkshire Regional Burns Centre between 1966 and 1973 *B. Moores, M. M. Rahman, F. S. C. Browning and J. A. D. Settle* 135
A method of enquiry into the experience of children with burns and scalds *Helen L. Martin* 142
The socio-economic factors of burn injuries in children *Kaokab Karim, Ishrat Alam, Nizam-Ul-Hasan and Amanullah Khan* 145
Extensive deep neck burns *L. C. Y. Ho, P. J. Sykes and B. N. Bailey* 149
Some problems in blood transfusions in burn patients *D. Ranev, M. Minev and A. Krastev* 160
Calcium exchange in thermally damaged red cells: a preliminary study *S. Baar* 163
Child-bearing in relation to the scarred abdominal wall from burns *Y. S. Rai and D. MacG. Jackson* 167
Keratoacanthoma arising in newly healed burn scars *William W. Monafo and Corey Bohling* 172
Prolonged gastric dilatation as a complication of lightning injury *T. M. Milward* 175
Tetrazolium reductase as an index of viability of stored skin *R. F. R. Brown and J. V. Harvey Kemble* 179
References to articles published during January to June 1974 186
Book review 188

Number 3

Burn wound healing—Introduction — *Simon Sevitt* — 189
Histological aspects of burn wound healing — *George D. Winter* — 191
The perinecrotic zone in burns and its influence on healing — *J. C. Lawrence* — 197
The second-degree burn: a re-evaluation — *Timothy A. Miller* — 207
Physiological mechanisms in repair of burns — *T. K. Hunt, G. Sheldon and R. Fuchs* — 212
Combat burns in the 1973 October war and the anti-tank missile burn syndrome — *Nahum Ben-Hur and Harry Soroff* — 217
The phosphorus burn and its specific treatment (a biochemical, histological, electron microscopy and radioactive study) — *Nahum Ben-Hur and J. Applebaum* — 222
Burn research in the USA: the center concept — *Emilie A. Black* — 233
Utilization of free composite tissue transfer by microvascular anastomoses for the repair of burn deformities — *Kiyonori Harii, Kitaro Ohmori and Seiichi Ohmori* — 237
Nutritional requirements and parenteral nutrition — *J. P. Masterston* — 245
Oxygen affinity of whole blood *in vivo* and under standard conditions in patients with severe burns — *G. Arturson* — 249
Respiratory responses to burn injury — *G. Arturson* — 254
Corticosteroid derivatives in the treatment of inhalation burns — *H. Seinfeld, Verena Giuliani and D. Merzel* — 261
In vitro cellular immune response in burns — *P. Leguit, jun.* — 264
Subcutaneous temperature measurements in a thermal injury — *J. Moserová, E. Běhounková and Z. Prouza* — 267
Endotoxaemia in severe burns — *Z. Koničková, J. Sedlák, J. Morávek, V. Matějiček and R. Vrabec* — 269
Morphological changes in rat liver after burning *A. Chlumská, Z. Koničková and J. Moserová* — 272
Travase: observations and controlled study of the effectiveness in burn débridement — *Vincent R. Pennisi and Angelo Capozzi* — 274
Letter to the Editor — 279
Book review — 280

Number 4

Training in the care of burn injuries — *A. B. Wallace* — 281
Respiratory tract injury in burning accidents — *A. Munro and G. S. Robertson* — 285
On the predictability of length of patient stay in a burns unit — *B. Moores, M. M. Rahman, J. A. D. Settle and F. S. C. Browning* — 291
Skeletal suspension in complex treatment of patients with extensive and deep burns of lower extremities — *N. P. Ivanova, L. A. Bolkhovitinova and A. Ya Plakhov* — 297
The NBT response of polymorphonuclear leucocytes in burned mice — *E. A. Roe and R. J. Jones* — 301
Early management of severe burns — *Irena Monies-Chass, Theodor Kaufman, Bernard Hirshowitz, Dan Mahler and Simon Bursztein* — 309
The use of ornithine-8-vasopressin in the management of burn eschar in children — *E. Julian Keogh* — 315
Electric cataract — *R. Rodriguez Valdés, V. García Torres, A. Bullón de Castro and J. Abad Toribio* — 317
The fluid therapy given to 1027 patients during the first 48 hours after burning: I. Total fluid and colloid input — *J. W. L. Davies* — 319
The fluid therapy given to 1027 patients during the first 48 hours after burning: II. The input of sodium and water and the tonicity of the therapy — *J. W. L. Davies* — 331
Burns of bone: can these bones live? I. Historical review and aetiology — *Douglas Jackson* — 342
Burns of bone: can these bones live? II. Results of 98 cases and discussion of treatment — *Douglas Jackson* — 356
References to articles published during July to December 1974 — 373
Letter to the editor — 375
Book review — 376
